

Cre8ive Culture for Schools

Creating Positive Leaders Today for a Positive World Tomorrow

“POSITIVE CULTURE BEGINS WITH YOU”

NIKI SPEARS

Imagine walking into your school each day feeling inspired, valued, successful and respected. Why wait for someone else to create an experience that you can create for yourself?

Get ready to embrace the power of your culture as we look at culture from the inside out! Let's face it, we cannot have positive teams without

first developing positive individuals. This principle is as just as true for adults, as it is for students.

Cre8ive Culture for Schools is dedicated to helping you create and sustain a positive school and district culture by supporting teachers, students, leaders, and families with strategies that will help them assess and grow in their personal culture.

During this multi-year experience, teachers and students will work together, engaging in mindful practices that easily fit into their classroom schedule without interrupting the flow of the academic curriculum. These experiences are meant to enhance everyday learning experiences by preparing the mind to focus on the possibilities, rather than the challenges.

WE DO THIS BY...

- Engaging schools in a 5-Step process which includes staff trainings, a book study, and leadership training that is focused on social-emotional self-care to get your team started on the journey.
- Offering monthly check-ins by a trained team member who will provide coaching and assistance to ensure success with implementation.
- Helping you and your team design a framework that will align behaviors, goals, and values.
- Integrating the “Practice of Being” which allows students and educators to mindfully prepare for the day ahead.
- Providing curriculum that can easily be integrated into the learning day.
- Fostering positive ways to focus on the good happening in our schools and districts so that these things expand throughout the school year.
- Cultivating a sense of responsibility and resiliency in each person so that they feel empowered and confident during times of challenges.

**Steps can be modified to fit your individual school/district needs

We are excited to partner with you on this amazing journey as we support you in developing positive leaders for a positive world!
